PROFILE

A Skilled and motivated React Js & React Native Developer proficient with JavaScript, React, Typescript and SQL. Committed to delivering high-quality result and working collaboratively in a friendly and dynamic environment. Looking forward to adding value through my passion and expertise.

EXPERIENCE

Teleperformance
Customer Service Executive Data (Dec'23 – Till date)
- Work with SAP T-codes to retrieve and process data for customer service purposes.
- Developed product schemes using SQL and HTML to visualize and analyse data efficiently.
- Utilized machine learning techniques to clean and prepare data for operational team, ensuring accurate and timely information for daily tasks.
- Generated and distributed daily OTM reports to clients, providing a comprehensive overview of overhead costs associated with product sales.

PROJECTS

Project 1 – Portfolio Website
Created a portfolio website, a platform that showcases my skills, projects and professional experiences. Designed with a modern, clean, and user-friendly interface, this website is more than just a digital resume; it reflects my journey as a developer and my passion for technology.
